

SUSTAINABILITY

"Innovation in Manufacturing" **is our mission statement.**

Our strategic mission statement is to be the low-cost leader in providing customer-preferred disposable products to our Industrial, Institutional, and Commercial & Retail partners. Customer satisfaction, commitment to excellence, integrity, environmental stewardship and a safe workplace will be the hallmarks of our service.

The company's focus on sustainability is directly linked to and in support of its mission statement.

We believe that initiatives around enhancing our reputation, being a strong corporate citizen, providing a good place to work and being a wise steward of our environmental resources will make us a stronger, more competitive company, better able to support and satisfy our broad customer base.

In today's competitive global marketplace, the issues relevant to supporting sustainability are directly linked to ZEGEN's long-term profitability and viability. We believe that sustainability and business success are not only compatible but are inextricably linked and that by embracing both, we will benefit our business for the long term.
